Ksontini

Tunisia

Ksontini worked full-time while studying to complete his bachelor's degree in computer science with honors. He is the founder of CarthageIT, a 250 member nonprofit organization that brings together students for IT events. He also cofounded Medico Continental, a premier surgical and medical equipment supplier.

Skills

Technology or Website Development, Capacity Building, Entrepreneurship, Leadership Development, Partnership and Coalition Building

Ksontini was responsible for system software at Novapeint, a paint manufacturer in Tunisia, where he helped to maintain a network that compiled more than 50 computers. In the summer of 2015, he volunteered as an English teacher in Brazil. Ksontini is now looking for a new international experience where he can have a positive impact.

Edward

El Salvador

Edward is a web developer and designer with bachelor's degrees in computer science and marketing from UJMD in El Salvador. He has eight years of experience working in a variety of areas including technology, marketing, clean production, energy efficiency and environmental conservation.

Skills

Technology or Website Development, Entrepreneurship, Project Management, Communications and Marketing, Graphic Design

As a technology consultant with Servicios Global S.A. de C.V., Edward learned about sales, interpersonal relationships and new technologies. He then worked at the National Center of Cleaner Production, a nonprofit focused on environmental issues, where he was a software developer and an IT Manager. Currently, Edward combines technology and marketing in his work. By starting with small changes, Edward hopes to continue contributing to a better world.

Anish

India

Skills

Technology or Website Development, Research, Social Work/Case Management, Training Development, Fundraising/Development

Programming

C, C++, SQL, HTML

Anish has nine years of experience in the nonprofit and corporate social responsibility sector. In 2008, He earned a Bachelor of Technology in electronics and telecommunication from Dr. Babasaheb Ambedkar Technological University in India. Anish has worked with Bridge International Academies, an education provider serving more than 500 schools across Africa and India. He designs, edits, and reviews math curriculum resources for more than 250,000 pupils across grades 1 to 8. He has developed resources leading to gains in math education.

Anish previously served as a Teach For India fellow for two years, during which he taught English and math to 42 students in a low-income school in a slum in Mumbai. He led these students to 2.5 grade levels of growth in both subjects. He also envisioned, managed, and carried out a successful fundraising campaign for the first library in this community. Anish also mentored and shared his experiences with a group of fellows from India and Malaysia, which helped them develop their own respective initiatives. Additionally, he has volunteered with several nonprofits as a part of the Corporate Social Responsibility team of Accenture, Mumbai.

Esther

Kenya

Skills

Technology or Website Development, Leadership Development, Entrepreneurship

Programming

HTML, JavaScript, Ruby

Esther has more than four years of experience in the technology sector. She has a bachelor's in business information technology from Mount Kenya University. Esther is one of the founders of sokonect.com, a platform that links small-scale farmers to buyers using mobile technology. As a software developer, she focuses on developing web applications with Ruby on Rails and contributes to opensource projects such as Mozilla, Speakerinnen, and Public Whip for OpenAustralia Foundation.

Esther serves as a board member at Girls in Tech Kenyan Chapter, a nonprofit organization that seeks to increase the visibility of women in the technology space through workshops, training and conferences. For three years, she has volunteered for Technovation as a coach, a mentor and a judge. As a coach she trained high school girls on programming skills and entrepreneurship. Esther has participated in leadership and management training including the USAID-funded Young African Leadership Initiative in 2016.

Prince Nigeria

Prince has over ten years of experience in the technology sector. He earned a postgraduate degree in electronics and computer engineering from Nnamdi Azikiwe University Awk in Nigeria. As a lecturer in the Department of Computer Engineering at Federal Polytechnic Oko in Nigeria, he designed the most innovative project in the 2012 National Science and Technology Exhibition.

Skills

Technology or Website Development, Business Development, Capacity Building, Entrepreneurship, Volunteer Management

Programming

C++, HTML, Visual Basic (MS), Assembly Language Programming

Prince is currently working with Nigerians in diaspora and the Nigerian government to establish the BEST Centre of Excellence: Centre for Business, Entrepreneurship, Science and Technological Advancement. For the past eight years, Prince has focused on the holistic transformation of environmental sustainability, waste management, and clean energy access to serve rural dwellers in Nigeria. These efforts have seen over 160 kilowatts of Solar Energy installed in Nigeria for homes and businesses, over 50 metric tons of waste recycled, and over 120 new jobs created for young people along the value chain. Prince is passionate about advancing energy access in Africa, education, business entrepreneurship, civic engagement, and youth empowerment.

Marilo Albania

Marilo has a Master of Science in information technology and communications and a Bachelor of Arts degree in computer science from the University of Tirana at Albania. He is the president of the Leadership Development Association of Albania. Previously, he served as the advertising and public relations marketing manager for the Albanian police force and was a computer services department manager for NOA Financing.

Skills

Olasunkanmi earned a bachelor's degree in electrical and computer engineering from Federal University of Technology Minna, Nigeria. While working as a lecturer in the Nigeria Army Officers' Wives Association Institute of Secretarial and Management Studies, he also conducted academic research, and counseled students on academic and personal issues.

Olasunkanmi works as a volunteer in Living Faith Foundation Kaduna where he is the IT officer and a member of the finance committee. He helps with computer system maintenance, database administration, designing and developing membership management systems, sound system operations, and budget planning. Currently, Olasunkanmi is a member of UNV (United Nation Volunteers), where he has five apprentices in the technical department. Previously, Olasunkanmi worked as a library attendant at the Nigerian Defense Academy, where he helped maintain library computers and attended to the needs of users.

Duaa

Sudan

Skills

Website/Application Development, Software Development, Training Management

Programming

HTML, CSS, JavaScript

Duaa is a web designer entrepreneur with four years hands-on experience designing websites and mobile applications using modern Java, HTML, CSS, JavaScript and WordPress templates with the aim to positively enrich Sudan's digital footprint. She holds a Bachelor's of Computer Science from the University of Khartoum. Duaa is a Co-Founder of Kush Sudan, the first digital nonprofit initiative reflecting Sudanese civilization and culture. She also founded her own social enterprise, My Academic Platform: a professional development website providing opportunities for Sudanese young professionals. Previously, as Executive Manager at Khartoum Innovation Hub, she oversaw the overall management and implementation and supervised a startup accelerator program called "Support." Support graduated 20 startups after 100 days of extensive entrepreneurship training. Prior to that, she was a Social Media Specialist and I.T. administrator at Lutfi Self Development Center. Beforehand, Duaa interned at corporations as a software developer, where she developed a web-based mobile application service manager for her graduation project that was awarded "Best Project Award at University of Khartoum." Throughout her experiences, Duaa has developed strong skills in application and web designing.
