TOP CANDIDATES

# Monitoring & Evaluation

October 2021

## CHIBUZOR (NIGERIA)

Chibuzor is a monitoring, evaluation, accountability and learning professional, with over five years of work experience in emergency and development contexts in Nigeria and holds a Bachelor's degree in Health Education from University of Nigeria, Nsukka. She currently works as a Monitoring and Evaluation Officer at the International Rescue Committee, where she conducts overall project monitoring, M&E system design and implementation, development of indicator trackers, and dissemination of findings and best practices. Prior to now, Chibuzor worked as a Monitoring, Evaluation, and Reporting Consultant in the Strengthening Integrated Delivery of HIV/AIDS Services. In this capacity, she conducted data quality reviews using both qualitative and quantitative methods of data collection, analyzed findings, and produced reports using Adobe InDesign. Chibuzor led the design and coordination of M&E tracking tools, output, and outcome indicators. She designed training and communication materials, tailored to improve the capacity of both beneficiaries and project staff. While working as a case Manager with Achieving Health Initiative Nigeria, under PEPFAR funded HIV/AIDS/TB project, she worked to ensure persons who test HIV positive are properly counselled and placed on antiretroviral therapy and facilitated safe space sessions for GBV survivors. Working in these capacities has strengthened her monitoring and evaluation skills to be applicable across different areas. Chibuzor interests herself with inclusion using M&E systems and is focused on Women's Protection and Empowerment.

## NABIL (PALESTINIAN TERRITORIES)

Nabil has over four years of experience in development, including over three years in Monitoring and Evaluation at International NGOs in Gaza and a bachelor's degree in Industrial Engineering which enabled him to acquire various skills in project coordination and operations. He currently works as Monitoring, Evaluation, Accountability and Learning Officer at International Medical Corps mission in Gaza overseeing and supervising MEAL tasks and responsibilities for projects that aim to support the overburdened health system in Gaza at multiple levels: emergency preparedness, response, primary, and secondary healthcare. Before joining IMC, Nabil worked as a Market Intelligence Sr. Specialist at Ooredoo Palestine focusing on data analysis, conducting market research, preparing monthly analysis, and studying market and customer behavior. Prior to that, Nabil worked for Mercy Corps West Bank and Gaza for four years in the Monitoring and Evaluation unit and Economic Development department. During that time, Nabil participated in needs assessment and evaluation studies for different sectors including education, resilience, and psycho-social support for children, adolescents, and youth. Nabil has a great deal of Monitoring and Evaluation field work particularly quantitative and qualitative data collection, data treatment and analysis, needs assessment studies, and evaluation studies. Nabil enjoyed working in Economic Development and Monitoring and Evaluation fields as he pursued his Micro Master Degree in the specialty of Data, Economic and Development Policy at MIT University.

## EZEKIEL (KENYA)

Ezekiel has four years of experience in the nonprofit sector and earned a Bachelor's degree in Economics and Statistics from the University of Nairobi. He also holds a certificate in Monitoring and Evaluation and is pursuing a part-time professional certification (Certified Public Accountant - CPA). Currently serving at Deloitte Consulting in Kenya, he is part of a team implementing the Young African Leaders Initiative (YALI) project covering 14 countries in East and Central Africa. As an Analyst in the Monitoring and Evaluation department, he helps the team achieve targets set by the donors as well as demonstrate the impact of the investment using his set of skills in performance measurement and results collection. For the last three and a half years, Ezekiel has been the liaison between YALI East Africa and US-based Social Impact, the contracted Performance and Learning partner for the project while serving in the strategy and innovation department at Deloitte. Previously, he volunteered at Digital Opportunity Trust while pursuing his undergraduate studies. While there, he helped with data collection interviews, data entry, verification, and cleaning. Through this professional experience, Wamalwa has amassed expertise in project implementation, data analysis, reporting, facilitation, training, and project management skills. He is keen on using his skills to help build capacity in organizations, initiatives, and projects to quantify their impact and result-oriented. Ezekiel is passionate about social inclusion as well as empowering marginalized groups to enhance equality and equitable distribution of opportunities.
